

WeShare® Premier Summary of Sharing

Program Description

For those seeking the highest level of flexibility and support, WeShare Premier offers expanded sharing for medically necessary care, enhanced mental and behavioral health services, and no waiting periods for pre-existing conditions related to general medical or pharmacy sharing. With lower Annual Member Care Share options—including a \$0 option—Members face less financial exposure when accessing care for eligible expenses.

Premier Members access care through the PHCS PPO Network (the most expansive provider network available to any healthcare sharing ministry!) along with Amwell telehealth and WeShare's trusted wellness partnerships. Unique to Premier, the program also includes sharing for income loss related to critical illness and assistance with funeral or memorial expenses, offering added protection for both Members and their families. This program gives Members the confidence of knowing they're supported by a comprehensive Sharing Program that's still affordable and convenient.

Available Markets

States where we sell the program

All states except WA, MT, ND, MA, AK, HI

Network

See specific line item details for sharing levels

Professional Services	Facility / Hospital Services	Walk-in Clinic	Virtual Care
PHCS PPO Network* Pricing: negotiated rates	Open network with preferred, green facilities (red rating equates to higher rates and should be avoided where possible) Pricing: HST (140% of Medicare fee schedule)	CVS MinuteClinic	Amwell CVS MinuteClinic BetterHelp Sleepwatchers

Out-of-Network / Non-Network Providers

WeShare Members are encouraged to seek care from participating, in-network care providers through WeShare's expansive network. However, WeShare may, at its discretion and for eligible medical services, consider a non-participating provider eligible if the services have been approved by Member Services.

Pre-certification Requirements Summary

See specific line item details for pre-certification details for each service

Pre-certification is required for

- Inpatient hospitalizations (including maternity and long-term acute care), 23-hr observations, skilled nursing facilities
- Surgeries not performed in the doctor's office
- Certain surgeries, regardless of the place of service: biopsies (when checking for or to rule out cancer), arthroscopy or joint surgery, bladder repair, cardiac cath/angioplasty, deviated septum/nasal surgery, laminectomy/spinal surgery, implants, transplants (except corneal), mammoplasty, blepharoplasty, varicose veins stripping, and ligation
- Diagnostic endoscopic, laparoscopic, and colonoscopy procedures
- Imaging such as EBCT (Electron Beam Tomography), CT scan, MRI, and PET scans
- Chemotherapy and radiation

- Trigger point or pain management injections, infusion therapy, biologic drugs, ablations, stimulators, blocks, and any drugs >\$1,500 a dose
- Physical, Occupational, and Speech Therapy
- Durable Medical Equipment >\$2,500
- Home healthcare
- Dialysis
- Behavioral health (intensive outpatient program, residential treatment centers, partial hospitalization program)
- Hospice
- Tobacco related illnesses

Multiple Services Billed

When multiple services are billed, each service will apply the sharing benefits applicable to that service. For example, if an office visit is billed along with labs, both the office visit and lab sharing benefit will be applied to the Shareable Medical Bill (SMB).

Pre-existing Conditions

None

Sharing Maximums

Applicable sharing maximums are outlined throughout the document within the line item they apply to. Sharing maximums apply to each individual Member unless otherwise stated. If a sharing dollar maximum applies, the maximum is accumulated with paid sharing dollars only (AMCS and consultation fees do not contribute towards the maximum). Once a sharing maximum has been reached, we will continue to process Shareable Medical Bills (SMB) for the services in order to apply network contracted rates, AMCS, and consultation fees where applicable. However, additional shared dollars will not be paid for services beyond the maximum. Therefore, once a maximum is reached, the Member can still benefit from the discounted rates of our network for the service, as well as continue to accumulate AMCS for the service throughout the year.

Waiting Periods

Includes services where a waiting period applies in order to be eligible for sharing. Does not include services that have a sharing maximum for a certain time period. See Sharing Maximums, page 2, for such services

After-life Reimbursement: 6-months of continuous membership required prior to date of death.

Critical Illness - Household Bill Reimbursement: 6-months of continuous membership required prior to household bill expenses being incurred.

Eligibility Requirements

Members must be of Christian faith, a permanent U.S. resident, under 65 years old, and at least 18 months old (to act as the primary Member). In order to be considered as a dependent on UHSM membership, individuals must be related to the primary applicant as follows: spouse/domestic partner, child (up to age 26 if unmarried and living in the same household or away at college), or siblings for children under 18 years old. Eligible children include biological children, adopted children and children in legal custody whose adoption is pending, or where the primary applicant has custody with legal responsibility for the child's medical care. Note: children under 18 years old can have a Combined Sharing Membership only if all children are under 18. Individuals 18 years old or older should be on their own membership.

Members must agree to our Statement of Shared beliefs as outlined in the membership guidelines and commit to living a healthy lifestyle.

If, at any time, it is discovered that a WeShare Sharing Member did not submit a complete and accurate medical history within the membership application, either a specific Annual Share Maximum or membership declination may be issued retroactively to her / his effective membership date.

Newborns

WeShare will automatically process eligible share requests for newborn services rendered within the first 30 days after birth, even if the newborn has not yet been added to the program, when all the following conditions are met:

- The newborn's mother is an active, continuous Sharing Member for at least 12-months following the newborn's date of birth.
- The shareable medical bill (SMB) is "clean" and specifically includes the newborn's full name and date of birth (bills received with the name "baby" are not eligible).

To continue membership beyond the initial 30 days, Members should contact Member Services to submit a program change within

30 days of birth to avoid eligibility gaps. If the program change is not submitted within 30 days, the newborn will be cancelled on day 31. Their next effective date will be the first available effective date following approval of the newborn addition. In such case, there will be a membership gap starting with day 31 until the next available effective date.

Note: Even beyond the 1st-30-days, a newborn's services will only be eligible for their 1st-12-months of life if the mother remains an active WeShare Member, continuously for 12-months after the newborn's date of birth. UHSM will process SMBs for the newborn as they come in and as long as the mother is still active (we will not pend SMBs to await the 12-months to pass to ensure the mother remained active). However, UHSM reserves the right to recoup shared dollars paid for newborn care if the mother cancels her membership within the 1st 12-months after delivery.

Continuity/Continuation of Care

In instances where a Member is receiving care from a provider who's contract with PHCS terminates, continued services are eligible up to 90-days after provider contract termination notice. The Member must notify WeShare that they would like to continue services/have a continuation of care need. During continuation, associated Shareable Medical Bills (SMB) will be processed as if the network termination had not occurred. However, the provider may pursue the Member for any amounts above the WeShare program's sharing amount. If the Member requires care past the 90 day time frame and the Member still requires care from this provider, Member Services has the authority to allow the services following out-of-network approval processes.

For purposes of this provision, "continuing care patient" means an individual who is undergoing a course of treatment for a serious and complex condition from a specific provider, undergoing a course of institutional or in-patient care from a specific provider, scheduled to undergo non-elective surgery from a specific provider, including receipt of postoperative care with respect to the surgery, or was determined to be terminally ill and is receiving treatment for such illness from a specific provider.

Specialty & Wellness Perks Eligibility:

Dental Discounts - Careington (provider finder)	Yes, except residents in WA, UT or VT where the program is not available
Vision Discounts - Superior Vision (provider finder)	Yes, except residents in WA, UT or VT where the program is not available
LASIK Discounts - Quasight LASIK (provider finder)	Yes, except residents in WA, UT or VT where the program is not available
Prescription Drug Discount Program - Optum Perks	Yes
Hearing Care Discount - Amplifon Hearing Health Care	Yes
Nutrition Support - Noom	Yes
America's #1 Meal Kit - HelloFresh	Yes
Exercise Resource - Fitbod , Active&Fit Direct	Yes
Biblical Resource - RightNow Media	Yes
Augeo Rewards - Available within the WeShare Mobile App	Yes

Healthy Discount Program

WeShare Premier Members are eligible to be considered for the [Healthy Discount Program](#).

For Combined Sharing Memberships, the primary Member and the spouse/domestic partner must meet Healthy Discount requirements to be eligible. Children on a Combined Sharing Membership with their parents/guardians do not need to apply for the Healthy Discount; once the primary Member and spouse/domestic partner meet requirements, the Healthy Discount will apply to membership. Children (under 18 years old) are not eligible for the Healthy Discount Program, even if they are the primary Member.

Renewal Discount

WeShare Premier Members are NOT eligible for the Renewal Discount.

Add-on Programs

Programs that can be added to this program, for an additional fee

Critical Care AMCS Support and Accidental Injury AMCS Support (which can be bundled as WeShare Premier - AMCS Support Package). Not available to TX residents.

Member Cost-Sharing

Membership Fees	Application fee: \$149 Tobacco, marijuana, & e-cigarette users: \$50 per usage Member, per month Four or more dependents: \$50 per dependent >4, per month Program Change Fee/Dependent Add (after enrollment): \$50 per Member added (waived for newborns added within 30 days of birth) Upgrade Program (to a lower AMCS option): \$99 Default payments: \$25					
Consultation Fees	Consultation fees apply to certain services and are applied to each visit. Unless otherwise noted, when a consultation fee applies, AMCS does not apply. While a summary is listed below, see the specific line item for details and to ensure thorough interpretation of the sharing benefit, including any limitations or exclusions. Acupuncture: \$75 Behavioral Health Counseling (in-person/outside of BetterHelp): \$75 Chiropractic: \$75 CVS MinuteClinic: \$10 Emergency Room: \$500 PCP Office Visits: \$25 Physical, Occupational, and Speech Therapy: \$75 Quest & LabCorp Labs: \$10 All other Labs for \$0 AMCS Option: \$50 Specialist Office Visits: \$75 Urgent Care: \$50 X-ray: \$25					
Annual Member Care Share (AMCS) The AMCS is selected during enrollment and can be found in Salesforce (for service and SMB: on the 360 view of the SMB tab titled Individual Max/AMCS; for sales: on the home screen next to the program name). To meet the family amount, a minimum of two Members must meet their individual AMCS	Individual	\$0	\$3,000	\$6,000	\$9,000	\$12,000
	Family	\$0	\$6,000	\$12,000	\$18,000	\$24,000

Pharmacy

Specialty Brand Medication	50% shared, after AMCS	50% shared, after AMCS	2 pen limit annually on injectable pens

Optum Perks Discount RX Program:

When discussing pharmacy benefits with Members, please promote the Optum Perks program as an alternative to traditional pharmacy benefits.

Important: Members must choose between using Optum Perks or their pharmacy sharing benefits—they cannot use both for the same prescription. Encourage Members to speak with their pharmacist to determine which option offers the best value for their specific medication needs.

Preventive Care

Services must be billed with a routine, preventive procedure and/or diagnosis code to be considered preventive and processed according to this section. If diagnostic services are billed in conjunction with preventive care, the preventive care will process according to this section but the diagnostic care will process according to the service billed, as non-routine. Except where services are excluded, UHSM follows the healthcare.gov guidelines to help categorize preventive care. Note: if a Member disagrees with the processing (e.g. advises it was a routine service but is not billed as such), Member Services should explain what is included as routine. If the Member confirms diagnostic services were not performed, contact the provider to obtain a corrected bill if applicable and request an SMB review once received.

Service	Sharing Level	Member Responsibility	Pre-certification Requirements	Waiting Period	Notes, Limitations & Exclusions
Routine Annual Physical	100%	\$0	None	None	None
Routine Annual Well-Woman Visit	100%	\$0	None	None	Birth control (all forms) are eligible and considered routine unless provided to mitigate a medical condition (e.g. painful menstrual cycles), when they would fall under the applicable diagnostic line (e.g. surgery for IUD insertion). Pills and items distributed by a Pharmacy fall under the Pharmacy sharing benefits. Over-the-counter birth control is not eligible. Tubal ligation is eligible but follows the surgery line item and is subject to AMCS. Note: IUD removal is considered preventative and shared at 100%, no AMCS responsibility unless being removed for a medical reason. Removal is considered medical rather than preventive when performed to treat or evaluate complications such as device displacement, infection, uterine perforation, pregnancy with IUD in place, significant adverse symptoms, or when specialized retrieval is required due to missing strings.
Routine Bone Density Screenings	100%	\$0	None	None	None
Routine Cervical Cancer Screenings	100%	\$0	None	None	To help contain costs, Members are encouraged to obtain a cervical cancer screening as part of their annual well-woman visit and have labs serviced by LabCorp of America or Quest Diagnostics. The following age and frequency stipulations apply: Eligible for Members: • 21-29 years of age: every 3 years • 30-65 years of age: every 5 years Note: Colposcopies (biopsy of the cervix) are considered diagnostic, refer to surgery line item. Services needed outside of the age and frequency stipulations above that are deemed medically necessary are no longer considered routine and are subject to the applicable diagnostic line item (e.g. Surgery and Diagnostic Labs).
Routine Colon Cancer Screenings Includes anesthesia or medications given to lessen discomfort if also billed with routine diagnosis codes.	100%	\$0	Required for Sigmoidoscopies and Colonoscopies	None	To help contain costs, Members are encouraged to request a colon cancer screening as part of their annual physical. The following age and frequency stipulations apply: Members under age 45: • Only eligible when medically necessary and if pre-certified Members age 45 or older: • Self-Screen Option: Cologuard tests are eligible every 3 years, or per ACS guidelines. • Flexible Sigmoidoscopy: Eligible every 5 years • Colonoscopy: Eligible every 10 years Polyp removal, abnormal tissue removal, or biopsies are considered diagnostic surgery and are subject to the AMCS (refer to surgery line item). Services needed outside of the age and frequency stipulations above that are deemed medically necessary are no longer considered routine and are subject to the applicable diagnostic line item (e.g. Surgery and Diagnostic Labs)

Service	Sharing Level	Member Responsibility	Pre-certification Requirements	Waiting Period	Notes, Limitations & Exclusions
Routine Immunizations	100%	\$0	None	None	To help contain costs, preventive immunizations should be performed in conjunction with an annual physical. The CDC provides a schedule of recommended, routine immunizations: https://www.cdc.gov/vaccines/schedules/ Shingles vaccine eligible for Members 50 years of age or older. Immunizations obtained strictly for travel purposes are not eligible. See program exclusions, page 10, for a list of ineligible travel immunizations. Immunizations obtained as a work requirement are not eligible as work-related services are not eligible. Non-routine immunizations are normally billed with a non-routine diagnosis and are subject to AMCS (e.g. rabies vaccine after animal bite, tetanus vaccine after an accident, Anthrax vaccine for a high-risk individual).
Routine Labs	100%	\$0	None	None	To help contain costs, Members are encouraged to: - Request routine labs as part of their annual physical/ annual wellness visit. - Obtain laboratory services from Quest Diagnostics or Lab Corp of America. Members should request their provider send labs to Quest or LabCorp when taken in office and sent out for processing.
Routine Mammograms	100%	\$0	None	None	To help contain costs, Members are encouraged to request a mammogram as part of their annual well-woman visit. The following age and frequency stipulations apply: Eligible for Members: 40-54 years of age: every year 55 years of age and older: every other year Services needed outside of the age and frequency stipulations above that are deemed medically necessary are no longer considered routine and are subject to the applicable diagnostic line item (e.g. Diagnostic Radiology)
Routine Prostate Screenings	100%	\$0	None	None	To help contain costs, Members are encouraged to request a prostate cancer screening as part of their annual physical and have labs serviced by LabCorp of America or Quest Diagnostics. The following age and frequency stipulations apply: Eligible for Members: - Under 45 years of age: only if specifically requested by a physician and medically necessary 45 years of age and older: every 2 years. If additional screenings are needed, they are only eligible if requested by a physician and medically necessary. Services needed outside of the age and frequency stipulations above that are deemed medically necessary are no longer considered routine and are subject to the applicable diagnostic line item (e.g. Diagnostic Labs)

Diagnostics and Medical Care

Service	Sharing Level	Member Responsibility	Pre-certification Requirements	Waiting Period	Notes, Limitations & Exclusions
Acupuncture	100% after consultation fee	\$75 consultation fee	None	None	Up to 12 annual visits If performed Inpatient, subject to AMCS (consultation fee does not apply)
After-life Reimbursement	100% up to \$10,000 lifetime sharing limit	Amounts that exceed \$10,000 lifetime sharing limit	None	6-months of continuous membership is required prior to date of death in order for funeral/ memorial services to be eligible	Provides financial support to the beneficiary of a participating Member in the event of the Member's death (all enrolled Members are eligible for this benefit, regardless of age). This benefit provides shared dollar reimbursement for eligible funeral or memorial services as a one-time lump sum; there is no cash advance allowed ahead of funeral/memorial services. Reimbursement Requirements: • 6-months of continuous membership prior to the date of the Member's death, as well as continuous membership until the date of death • Death certificate issued by a recognized authority • Beneficiary must be designated/on file and beneficiary must be over 18 years old. If the beneficiary is also deceased, a secondary beneficiary must be named and on file, also over 18 years old. For dependent members under age 18, reimbursement will be payable to the primary member's designated beneficiary on file. Only members over 18 need to elect a beneficiary and keep it updated. • Receipt or invoice from the funeral home, cemetery, or memorial service provider • Copy of a government issued ID for beneficiary Eligible Expenses: • Funeral home services (basic preparation, embalming, cremation, casket, or urn) • Cemetery or memorial site fees • Burial or cremation services • Memorial service costs (venue, program printing, food/ refreshments/catering expenses) • Funeral service clergy/officiant fees • Hearse/transport of deceased Member • Headstone/grave marker (up to \$3k of the \$10k limit may be used for this) Exclusions: • Suicide or self-inflicted injury • Death resulting from illegal activities • Death of a Member who was not in good standing or who violated membership agreements • This benefit cannot be transferred to another person • Floral arrangement/ flowers • Travel expenses for family members are not eligible • Medical and pharmacy bills of deceased Member, see the applicable line item of the service being rendered for standard sharing benefits of medical and pharmacy bills • Reimbursement requests received more than 6-months after the date of the Member's death • Services supported by another program or insurance (e.g. life-insurance); UHSM will not allow reimbursement for services that have been explicitly paid for by another program (UHSM will not duplicate payment) Reimbursement Process: • Beneficiary must submit an After-Life Reimbursement Request Form within 6-months of the Member's death, along with supporting documentation/receipts to show services paid for. • Reimbursement will be sent via check to the named beneficiary of the deceased Member on file at the time of death. For dependent members under age 18, any death-related reimbursement will be payable to the primary member's designated beneficiary on file. The check will be sent to the address on their Government Issued ID. The program will not consider disputes regarding intent or entitlement and will not evaluate wills, trusts, or other personal documents unless required to do so by law/court order. • Reimbursement is subject to review and eligibility to ensure request aligns with and meets membership guidelines. Fraud or misrepresentation voids eligibility for reimbursement.

Allergy Testing	100% after AMCS, up to \$1,200 lifetime sharing maximum	AMCS + amounts that exceed \$1,200 lifetime sharing maximum	None	None	\$1,200 lifetime sharing maximum
Ambulance & Air Transport	100% after AMCS, up to applicable sharing maximum	AMCS + amounts that exceed trip sharing maximum	Pre-certification not required for emergencies. However, medical records may be requested for a post-service review to ensure medical necessity.	None	Ambulance: \$500 share maximum, per ride Air Transport: \$10,000 share maximum, per ride Please note: the accident protection program (Accidental Injury AMCS Support) can be added for increase sharing levels and to reimburse for AMCS paid for services related to an eligible accidental injury.
Anesthesia	100% after AMCS	AMCS	Pre-certification is not required for anesthesia specifically but may be required for the service requiring anesthesia. Be sure to review the specific line item associated with the primary procedure.	None	N/A
Behavioral Health Counseling & Psychiatric Treatment - Office	BetterHelp and Amwell: 100% All other providers: 100% after consultation fee	BetterHelp and Amwell: \$0 All other providers: \$75 consultation fee	None	None	Substance abuse services and certain diagnosis are not eligible, see exclusion section and/or the Behavioral Health job aid for details: https://uhsmorg.sharepoint.com/:w/s/UniteHealthShareMinistries/IQBbXt6RQjhSTalMYUQse9xYAYZUrrMc5U7r5AFRBUy-Dluo?e=1YalVv To help contain cost, offer convenience, and reduce scheduling wait times, Members are encouraged to obtain care through Amwell (for counseling or psychiatric services) or BetterHelp (for counseling services). Members also have access to virtual insomnia treatments and other behavioral health services to improve their sleep through Sleepwatchers , members should be referred to Sleepwatchers. Please see: https://uhsmorg.sharepoint.com/:w/s/UniteHealthShareMinistries/IQD5xoW-w5Y6QoZfCUP7-mFkAZ7G37Ep2_nXVfSejA17MBw?e=DRSSkb for information on referral process. Sleepwatchers services will be billed as an SMB and apply the Member's consult fee (for behavioral health related sleep services). The following limits apply: • Up to 12 annual visits for Psychiatric care through Amwell or a PHCS provider. • Up to 24 annual visits for individual, family, and marriage counseling, combined across Amwell, BetterHelp, PHCS/ MultiPlan Providers. However, PHCS providers are limited to 10 visits (as a subset of the 24 visits) and accumulated towards the 24 visit total*. • Up to 10 annual visits for sleep/insomnia counseling and therapy through Sleepwatchers. All other providers are ineligible. Note: BetterHelp also has resources and group counseling sessions that Members can access, which do not count towards the 24 session annual maximum. Therefore, such resources are still available once a Member has exhausted their included 24 annual session maximum. Members also receive 30% off to continue BetterHelp treatment beyond the initial 10 visits annually. Members can continue therapy or psychiatric services through Amwell beyond the annual visit limit at their cost (discounted/displayed on Amwell's site, currently \$96 for Masters level Psychotherapy and \$122 for Doctorate level). BetterHelp individual therapy minimum age requirement: 18 years old BetterHelp teen therapy minimum age requirement: 13 years old Amwell providers cannot prescribe controlled substances. Note: Diagnostic testing follows the line item for the service being billed and does not accumulate towards the visit limit. *SMB processing for visit accumulations - Since Amwell and BetterHelp services are not billed via an SMB, we cannot physically count them towards a broader 24-visit limit combined with PHCS providers. Therefore, systematically, a Member could receive 10 visits by a PHCS provider and 24 separate visits through BetterHelp or Amwell. However, we should communicate to the Member that there is a 24-visit limit, combined across providers to avoid over-utilization. If a member uses the 10 PHCS provider visits, we should advise that they would get 14 through BetterHelp or Amwell.

Service	Sharing Level	Member Responsibility	Pre-certification Requirements	Waiting Period	Notes, Limitations & Exclusions
Behavioral Health - Inpatient and Outpatient	100% after AMCS	AMCS	Pre-certification required for inpatient services, intensive outpatient programs, residential treatment centers, and partial hospitalization programs	None	Pre-certification will determine length of stay or course of treatment eligibility, when required. Substance abuse services and certain diagnosis are not eligible, see exclusion section for details.
Cancer	Follows line item for services being billed	Follows line item for services being billed	Pre-certification required	None	Members should: • Notify WeShare within 30 calendar days of diagnosis. • Obtain recommended screening tests to help identify cancers (ages 40 and over).
Cataract and Glaucoma	Follows line item for services being billed	Follows line item for services being billed	Pre-certification required for surgery if not performed in the office. If performed in the office, pre-certification not required.	None	Includes lenses inserted during cataract removal.
Chiropractic	100% after consultation fee	\$75 consultation fee	None	None	Up to 12 annual visits If performed Inpatient, subject to AMCS (consultation fee does not apply)

Service	Sharing Level	Member Responsibility	Pre-certification Requirements	Waiting Period	Notes, Limitations & Exclusions
Critical Illness - Household Bill Reimbursement	100% up to \$40,000 lifetime sharing limit	Amounts that exceed \$40,000 lifetime sharing limit	None	6-months of continuous membership is required prior to eligible expense reimbursement. Service must be performed and expenses incurred after 6-month waiting period has passed in order to be eligible.	Not available to TX Members. The intent of this sharing benefit is to provide sharing support of household bills (things they have to pay to keep life running) for Members with an eligible critical illness who have been out of work and/or lost income as a result of their illness or recovery from that illness. It does not provide sharing support for things a Member may choose to buy for comfort, entertainment, or upgrade purposes. The lifetime limit is per adult Member with an eligible illness. A Member is considered to have a qualifying loss of work/income if they experience a reduction of the following for at least 14 consecutive days due to an eligible critical illness: • At least 20 hours per week, OR • 50% or more of their normal weekly work hours Eligible Illnesses: • Stroke • Myocardial Infarction (heart attack) • Aggressive Cancer • Renal (Kidney) Failure • Transplants of major organs Notes: • Aggressive cancer is a malignancy that is high-grade, fast-growing, invasive, and associated with a high risk of rapid progression or mortality without prompt treatment. Excludes slow-growing, early-stage, or indolent cancers. • Renal failure: includes only ESRD, continuous dialysis treatment, or situations where the Member is waiting on a kidney transplant. • Stroke-excludes Transient ischemic attacks (TIAs), reversible ischemic neurological deficits, and migraine-related neurological events. • Major Organ Transplant: surgical replacement of a failing vital organ in the covered Member, including heart, lung, liver, kidney, pancreas, or combined organ transplants. • Excludes: Organ donation by the Member • A Member may request reimbursement for multiple conditions until their \$40k lifetime limit is reached. Eligible Expenses: • Housing: Rent or mortgage payments on a primary residence; HOA fees • Utilities: Electric, gas, oil, water, sewage, Internet, phone (mobile and home) • Transportation: Fuel, basic car repairs, emergency transportation fees beyond WeShare Premier standard sharing maximum • Childcare / Dependent Care: Licensed childcare, after-school programs, essential adult care • Insurance: Home/renters insurance, car insurance • \$1k monthly allowance for groceries and other essentials • Note: eligible expenses must be incurred after income loss in order to be eligible. Expenses incurred within the 1st 6-months of continuous WeShare membership are ineligible. Exclusions: • Debt consolidation • New purchases (e.g. cannot be utilized to buy a new home, new car, new furniture, new clothes, non-essential home renovations, new appliances) • Business expenses • Elective spending (vacations and corresponding expenses, luxury items, electronics, wellness services and retreats, cosmetic procedures, hobbies, collectibles, restaurant dining for entertainment, smart home devices) • Memberships (gym, clubs, camps, extracurricular activities, streaming services, entertainment/TV or cable, non-essential smart home subscriptions) • Life Insurance • Medical or Pharmacy expenses (paid by the Member as a result of their AMCS, consult fees or for ineligible services). Members can add-on Critical Care AMCS Support for added support of their cost sharing responsibility, where applicable. • Expenses covered by other programs, including government funded programs • Expenses incurred during 6-month waiting period • Dependent children are not eligible for the reimbursement unless the Member can supply proof that the dependent child specifically contributes towards the above household bills and without their contribution, the household is unable to sustain. If proof is supplied and approved, only those expenses that the child was paying are eligible. • Organ donation (our Member is donor)

Service	Sharing Level	Member Responsibility	Pre-certification Requirements	Waiting Period	Notes, Limitations & Exclusions (Cont.)
Critical Illness - Household Bill Reimbursement	100% up to \$40,000 lifetime sharing limit	Amounts that exceed \$40,000 lifetime sharing limit	None	6-months of continuous membership is required prior to eligible expense reimbursement. Service must be performed and expenses incurred after 6-month waiting period has passed in order to be eligible.	Reimbursement Process: - Member must submit a Critical Illness Reimbursement Request Form, along with supporting documentation that corresponds to the bill reimbursement request within 6-months of their payment to the provider for their AMCS amount. For example, if a treatment is rendered in March, the provider bills the Member in July, and the Member subsequently pays their AMCS portion to the provider in September, September's payment receipt date acts as the date paid and begins the 6-month timely filing start date. - Reimbursement will be sent via check to the Member. The check will be sent to the address on their membership. - Note: A member may request and utilize their \$40k lifetime benefit for each eligible illness. For example, if they are diagnosed with cancer and out of work/have lost wages, they may use it. If they do not exhaust the \$40k lifetime limit for that one condition and are later diagnosed with a stroke, in which they also lose wages, they may use the remaining lifetime limit for the subsequent condition. However, if they reach the lifetime limit on the 1st condition, they would not have any remaining benefit for subsequent conditions. Documentation Required: - Member Eligibility: - A letter from their treating physician indicating their diagnosis and their inability to work, with approximate dates where work will be impacted. - Income Loss Proof: - Letter from employer confirming employment ended, leave of absence or reduction in hours (with effective and expected end date, if applicable); - Short-term disability approval - Recent pay-stubs (illustrating income prior to loss and income after loss/reduction showing the variance); - In addition to a licensed provider note confirming a qualifying diagnosis and impact on work, self-employed members must submit a signed self-attestation describing: - Their typical work duties - How their condition has affected their ability to perform those duties - Any reduction in work hours or capacity Reimbursement remains discretionary and subject to program guidelines. - The Member must be an active WeShare Premier Member for at least 6-months when the service was rendered. They must also be an active WeShare Premier Member when the AMCS bill was paid to the provider in order to be eligible for reimbursement. - Bill Eligibility: - Housing: Mortgage statement or lease agreement with paid receipt; HOA paid receipt - Utilities: Electric, gas, oil, water, sewage, Internet, phone bill and receipt showing paid - Transportation: Fuel receipt, basic car repairs receipts, emergency transportation fees invoice and paid receipt - Childcare / Dependent Care: receipt from child/dependent care provider - Insurance: Home/renters insurance or car insurance invoice and receipt of payment - Health sharing: receipt or bank statement showing paid \$1k monthly discretionary allowance: income loss proof

CVS MinuteClinic	100% after consultation fee	\$10 consultation fee	None	None	N/A
Diagnostic Labs	Quest and Lab Corp: 100% after consultation fee All other providers: 100% after AMCS* is met * after consultation fee for \$0 AMCS option	Quest and LabCorp: \$10 consultation fee All other providers for \$0k AMCS option: \$50 consultation fee All other providers for \$3k-\$12k AMCS option: AMCS	Pre-certification is not required for labs specifically but may be required for the service requiring the labs (e.g. biopsy, surgery). Be sure to review the specific line item associated with the primary procedure. Medical records may be requested for a post-service review to ensure medical necessity.	None	N/A
Diagnostic Tests (Non-Lab or Radiology)	100% after AMCS	AMCS	Pre-certification required for laparoscopies and endoscopies	None	Sleep studies are eligible when rendered by (for members local to the clinic in IL) or shipped from Sleepwatchers (https://www.sleepwatchers.com/) for home test kits. Members should be referred to Sleepwatchers, more info here: https://uhs.morg.sharepoint.com/:w:/s/UniteHealthShareMinistries/IQD5xoW-w5Y6QoZfCUP7-mFkAZ7G37Ep2-nXVfSejA17MBw?e=gLCLqh. All other providers are not eligible.
Dialysis Includes Hemodialysis and Peritoneal dialysis	100% after AMCS	AMCS	Pre-certification required	None	Members with kidney failure are required to sign up for Medicare if they are eligible for Medicare (require dialysis or are scheduled for a kidney transplant), they cannot continue on WeShare Premier during the time that they are Medicare eligible. WeShare Premier does not coordinate benefits or share after Medicare. WeShare Premier allows members to remain active and shares in eligible dialysis services in the following circumstances: • Members who are not Medicare eligible (e.g. have not worked the required amount of time/ paid into) • During the first 3 months of dialysis for members who have enrolled in Medicare but are waiting for Medicare to become effective (they have a 4-month waiting period for eligibility due to dialysis) • Leading up to a kidney transplant while they await their Medicare eligibility date (Medicare eligibility begins the month they are admitted into the hospital for a kidney transplant or 2 months ahead of their transplant date if they are inpatient prior to the transplant date). • 12 months after a member stops dialysis or 36 months after the month they have a kidney transplant (as Medicare eligibility ends) Note: Medicare allows retroactive enrollment without penalties if a member is eligible due to ESRD. Therefore, members are required to enroll in Medicare any time after they have been advised that they need dialysis or a kidney transplant. Members should enroll as soon as able to avoid the need for retroactive Medicare coverage and SMB recoupments (as WeShare Premier will not allow services for members who are Medicare eligible due to ESRD). If they are not Medicare eligible or Medicare eligibility for ESRD has ended, they may be considered for enrollment in a WeShare program, following standard application and enrollment processes.

Service	Sharing Level	Member Responsibility	Pre-certification Requirements	Waiting Period	Notes, Limitations & Exclusions
Durable Medical Equipment (DME)	CPAP machines, BiPAP machines, CPAP alternatives (such as Mandibular Advancement Devices) Supplies: 100% after AMCS is met, up to \$250 annual sharing maximum All other DME: 100% after AMCS is met, up to \$1,200 annual sharing maximum	AMCS + amounts that exceed \$1,200 or \$250 annual sharing maximum (whichever is applicable based on the type of equipment)	Pre-certification required for DME over \$2,500 in billed charges	None	\$1,200 annual sharing maximum for DME; \$250 annual sharing maximum for CPAP and BiPAP supplies Note: CPAP, BiPAP, CPAP alternatives (such as Mandibular Advancement Devices), prosthetics and orthotics are eligible and apply to annual DME limit. Sleep studies are eligible when performed or distributed by Sleepwatchers, see Diagnostic Tests (Non-Lab or Radiology) for details. Foot orthotics are only eligible when prescribed by a physician and distributed by a DME supplier. Devices for light therapy are not eligible, including photolight therapy boxes, UV Blue or Red therapy, and bright light therapy. Diabetic Supplies: The following equipment and supplies are eligible under the DME sharing benefits. All other equipment or supplies are eligible under the Pharmacy benefits: • Blood Glucose Monitors & Supplies • Continuous Blood Glucose Monitors/Receivers • Continuous Glucose Sensors, Transmitters & Supplies • Insulin Pumps & Supplies
Emergency Room Includes Emergency Room facility fee and ER Physician fee only. Refer to individual line items for all other services billed within the ER (e.g. Labs; Radiology, Inpatient Hospitalization if Member is admitted; etc.)	100% after consultation fee	\$500 consultation fee Note: Waived if admitted	Pre-certification not required for emergencies. However, medical records may be requested for a post-service review to ensure medical necessity.	None	Includes emergency room department charge and the ER Physician fees; all other services follow the specific line item for the service and may be subject to AMCS. The consult fee is waived if the Member is admitted inpatient (on the same day as the ER visit / as a result of the ER visit), regardless of the admission facility.
Home Health Care Eligible for skilled nursing care needs to treat and manage a medical condition, illness or injury (e.g. wound care, medication management, pain management, vital monitoring, progress tracking), performed by a licensed medical provider (skilled nurse, home health aide). Not eligible solely for non-medical, personal home care (e.g. hygiene, cooking, cleaning). Includes all services rendered by a home healthcare professional (including home infusion), except physical, occupational and speech therapy which follow their respective line item for sharing benefits.	100% after AMCS	AMCS + amounts that exceed visit limit based on pre-auth	Pre-certification required	None	Member does not need to be deemed home bound in order to be considered. Pre-certification will determine need, duration, and medical necessity. A visit is defined as each date of service billed.
Hospice	100% after AMCS	AMCS	Pre-certification required	None	N/A
Injections, Infusion Services and Supplies, and Drugs dispensed/ administered by a doctor or hospital	100% after AMCS	AMCS	Pre-certification required for trigger point or pain management injections, infusion therapy, biologic drugs, ablations, stimulators, blocks and any drugs >\$1,500	None	Injections obtained through a Pharmacy follow the Pharmacy benefits where injection pens are subject to a 2-pen annual limit. Pharmacy obtained injections dispensed in a vial are eligible based on medical necessity with no frequency limit. Injections administered by a Physician are eligible, based on medical necessity, without frequency limitations. Pre-certification will determine medical necessity, where required.
Inpatient Hospitalization Services billed during an Inpatient Hospitalization apply towards AMCS (including services that normally apply a consultation fee, e.g. physical therapy), except X-rays which apply the \$25 consultation fee.	100% after AMCS	AMCS	Pre-certification required for all inpatient stays (>24 hours), as well as 23-hour observations	None	N/A

Service	Sharing Level	Member Responsibility	Pre-certification Requirements	Waiting Period	Notes, Limitations & Exclusions
Maternity	100% after AMCS	AMCS + amounts that exceed sharing maximums. Prenatal genetic testing (e.g. MaterniT21, Panorama, NIPT, ect.) is not eligible (for congenital birth defects).	Pre-certification required	None	Mother and baby service eligibility stipulations: - Continuous membership is required through delivery for all maternity related bills to be eligible (including all prenatal, ultrasounds, labs, etc.). UHSM reserves the right to recoup shared dollars paid on pre-natal services if the mother does not continue membership through delivery. - Postpartum care and newborn needs (defined as all care received for the mother related to postpartum and all care related to the baby in the 12-months following the birth) are eligible for sharing only if the mother remains a continuously active sharing member 12 months after delivery. If membership terminates at any point during this period, postpartum and newborn needs through the baby's first year after birth will not be eligible for sharing. UHSM reserves the right to recoup shared dollars paid on postpartum or baby care if the mother cancels her membership within that 12-months following the baby's birth. - Note: as long as the mother remains an active member at least 12-months after delivery, the 1st 30-days of the newborn's care is still eligible automatically, even if the baby is not formally enrolled (see the "Eligibility Requirements" section for details). SMB Processing Logic: - Maternity is normally submitted as a global delivery fee where OB-GYN and hospital services are included in that fee, which all fall under the maternity sharing benefits. If OB-GYN and hospital services are separately billed, the services will still process according to the maternity sharing benefits. Ultrasounds and lab work may be billed separately and would process according to the radiology and lab sharing benefits. Well-baby services performed in the hospital are generally included in the mother's bill. However, if they are billed separately or the child needs support beyond well-baby care, the services would process according to the service being billed and under the baby's membership/ AMCS, as applicable. Congenital birth defects have a \$50,000 annual sharing maximum. Prenatal genetic testing (e.g. MaterniT21, Panorama, NIPT, ect.) is not eligible. Midwifery is eligible, with the following stipulations: - The midwife must in-network and either have the ability to refer to an OBGYN or be supported by an OBGYN in case complications arise throughout the pregnancy. If a Member is referred to an OBGYN to help manage the remainder of their pregnancy, the midwife is not longer eligible for sharing; WeShare will not share services for both a midwife and an OBGYN throughout the pregnancy. - Delivery must be performed in a hospital or birthing center with on-call OBGYN doctors to support if complications arise during delivery. - Home births are not eligible. Emergency transports to a facility in the event a home birth does not go as planned and medical attention is needed, would also not be eligible. The hospital services to treat any unexpected delivery-related conditions or deliver the newborn would be eligible. When not related to a home birth attempt, emergency transportation to the hospital is eligible based on medical necessity for maternity related complications (e.g., labor progressed too quickly to safely get the patient to the hospital by car). Medically necessary transport would follow the ambulance sharing benefits.

Service	Sharing Level	Member Responsibility	Pre-certification Requirements	Waiting Period	Notes, Limitations & Exclusions
Medical Supplies Includes supplies utilized by a provider during a service or hospitalization (e.g., wound care, syringes, test kits/ swabs, splints, nebulizer supplies). Over-the-counter supplies are not eligible.	100% after AMCS	AMCS	None	None	N/A
Office Visit - Primary Care Physician (PCP)	100% after consultation fee	\$25 consultation fee	None	None	Office-based procedures follow the applicable line item for the service being billed (e.g. medically necessary mole removal is surgery) and may require pre-certification. See individual line item for service being performed to review sharing benefits and pre-certification requirements. See Program Exclusions, page 17, for details.
Office Visit - Specialist	100% after consultation fee	\$75 consultation fee	None	None	Office-based procedures follow the applicable line item for the service being billed (e.g. medically necessary mole removal is surgery) and may require pre-certification. See individual line item for service being performed to review sharing benefits and pre-certification requirements. See Program Exclusions, page 17, for details.
Outpatient Facility Includes outpatient facility fee for use of the facility. Refer to individual line items for all other services billed within an outpatient facility (e.g. labs, surgery, etc.)	100% after AMCS	AMCS	Pre-certification is required for 23-hr observations	None	N/A
Physical, Occupational and Speech Therapy (Outpatient, Office, or Home)	100% after consultation fee	\$75 consultation fee	Pre-certification required	None	Visit limitations are determined through the pre-certification process and based on medical necessity. If performed in-patient, subject to AMCS (consultation fee does not apply)
Radiology	X-rays: 100% after consultation fee All other radiology (e.g.: CT/MRI/PET Scan): 100% after AMCS	X-rays: \$25 consultation fee All other radiology: AMCS	Pre-certification required for laparoscopy, MRI, CT and PET scans. Pre-certification not required for emergencies. However, medical records may be requested for a post-service review to ensure medical necessity.	None	When processing SMBs for X-rays, apply consult fee to professional component, process technical component at 100% with no Member cost share.
Skilled Nursing Facility	100% after AMCS	AMCS	Pre-certification required	None	N/A

Service	Sharing Level	Member Responsibility	Pre-certification Requirements	Waiting Period	Notes, Limitations & Exclusions
Surgery	100% after AMCS	AMCS	Pre-certification required for scheduled outpatient or inpatient procedures. Pre-certification required for biopsies when checking for or ruling out cancer, endoscopic procedures and colonoscopies. Pre-certification is not required for any other office-based surgeries. Pre-certification not required for emergencies. However, medical records may be requested for a post-service review to ensure medical necessity.	None	Includes sterilizations or tubal ligation
Telehealth - Virtual 24/7 Urgent Care through Amwell	100%	\$0	None	None	Members can learn more, register and log-in at https://wesharetelehealth.org/onboarding/central-login-page
Telehealth - Virtual Care with Non-Amwell Providers	Follows line item for services being billed	Follows line item for services being billed	None	None	N/A
Tobacco & Marijuana	100% after \$25,000 AMCS	\$25,000 AMCS	Pre-certification required	None	\$25,000 AMCS applies to tobacco or e-cigarette related illnesses such as cancer, respiratory disease, vascular disease (including coronary disease and stroke), oral or esophageal disease and gastric or duodenal ulcers.
Urgent Care	100% after consultation fee	\$50 consultation fee	Pre-certification not required for urgent needs. However, medical records may be requested for a post-service review to ensure medical necessity.	None	N/A
Miscellaneous - All Other Eligible Services, Not Specifically Listed	100% after AMCS	AMCS	See "Pre-certification Requirements Summary" section for complete list of services that require pre-certification	See Waiting Periods, page 2, for details.	N/A

Program Exclusions

The below services are not eligible for sharing

Category	Description	Additional Notes
Alternative Providers	Christian Science Practitioners, Naturopaths, Holistic Providers	
Birth Control	Reversals of sterilization procedures	
Coordination of Benefits	Expenses covered by insurance or another third-party payor agreement of any kind (including, without limitation, worker's compensation, fraternal benefits, self-insured health plan, federal or state governmental program, or any other applicable health insurance), or if a third-party is responsible to pay such expenses. For example, if a Member is injured in a car accident, the Member's automobile insurance may provide coverage or an at fault third-party may be liable for the Member's medical expenses. Under either circumstance, such medical expenses are not eligible for sharing; WeShare does not coordinate benefits with other programs or payors.	
Cosmetic	1. Cosmetic surgery (elective) 2. Breast implants (placement, replacement, and / or removal) and any complications related to breast implants (except as an eligible cancer treatment plan) 3. Dermabrasion service	
Dental	Dental services and procedures are ineligible for sharing. This includes but is not limited to: 1. Periodontics; 2. Orthodontics; 3. Temporomandibular joint disorder (TMJ); 4. Orthognathic surgery, and/or; 5. Charges for dental work done under general anesthesia 6. Extractions (e.g.: impacted wisdom teeth)	While dental procedures are not eligible for sharing, Members should be educated on and encouraged to leverage their Dental Discount Program (through Careington).
Dialysis	Members who are eligible for Medicare due to ESRD are not eligible for sharing during that period of Medicare coverage.	
Emergency Room	1. Emergency room visits where members fail to provide medical records, where requested 2. Use of emergency room for non-urgent medical needs (unless treatment at an emergency room is the only legitimate option, because of the severity of the condition and lack of availability of treatment at an alternative facility)	
Experimental Treatments	Procedures or treatments that are not recognized or approved by the American Medical Association (AMA). This includes procedures not approved by the AMA for a given application, procedures still in clinical trials, and procedures that are classified as experimental, or as unproven interventions and therapies.	
Genetic Testing	Genetic testing and counseling including prenatal genetic testing (e.g. MaterniT21, Panorama, NIPT, ect.).	
Gender Reassignment & Hormone Therapy	1. Gender Dysphoria counseling or procedures 2. Hormone Therapy, for men and women (unless deemed medically necessary to treat a medical condition)	
Hearing	1. Cochlear devices 2. Other hearing needs	While hearing care procedures are not eligible for sharing, Members should be educated on and encouraged to leverage their Hearing Care Discount Program (through Amplifon). Note: Routine hearing screenings (normally performed during a routine, annual physical) are eligible and follow the diagnostic testing benefits.
Infertility	Infertility testing or treatment	
Long Term Care	Long-term care or other care that does not treat an illness or injury (for example, custodial care)	Ineligible services include: assisted living facilities, nursing homes, continuing care retirement communities.

Category	Description	Additional Notes
Negligence & Lifestyle Choices	1. Any illness or injury caused by the Member's failure to obtain timely or proper medical treatment, as well as any subsequent illness or injury caused by your failure to follow a plan of treatment 2. Any medical need(s), those of which are caused by lifestyles, choices, or activities which are in conflict with the Statement of Shared Beliefs; these medical need(s) are ineligible for sharing (see notes) 3. Extreme sports injuries (see notes)	Lifestyle choices: 1. Abortion or abortion counseling; 2. Drug screening and nicotine testing (in the event of results coming back positive); 3. STDs / STIs (Sexually Transmitted Diseases / Infections), except in the instance of sexual assault; 4. Illness or injury due to excessive use of alcohol, including intentional excessive consumption; 5. Illness or injury due to illegal or recreational drug use including using any form of cannabis whether or not it has been prescribed by a medical professional; 6. Maternity resulting from adultery; 7. Illness or injury due to consumption of a prescription medication taken in excess of instructions; 8. Self-inflicted or intentional injuries; 9. Illness or injury caused by illegal activities; and / or 10. Diseases caused by tattoos, body piercing, or lifestyle choices (includes HIV / AIDs and STDs / STIs) Extreme sports: 11. Injuries arising from the use of personal aircraft, and any other aircraft not operated by a commercially licensed public carrier, are ineligible for sharing. 12. Injuries arising from extreme sports (activities perceived as having a high level of danger) are ineligible for sharing. These activities often involve speed, height, a high level of physical exertion, and specialized gear, and are ineligible for sharing. 13. Injuries relating to activities that are considered professional athletic competition or training, for a profit, or sponsored events, are ineligible for sharing
Not Medically Necessary	1. Treatment that is not medically necessary or appropriate (as determined by a licensed medical professional) 2. Drug testing	
Out-of-Network	Any medical service fee(s) paid to out-of-network providers (unless approved by Member Services), and / or upfront payments made to in-network Providers. WeShare is not a reimbursement program. Situations where WeShare may make an exception: 1. Emergencies 2. Instances where a network provider was not available for the required service, within a reasonable distance	
Over-the-Counter (OTC) Medications	Medication not requiring a prescription	
Pre-certification	While WeShare will perform post-service reviews to determine medical necessity and consider a Shareable Medical Bill for sharing, WeShare reserves the right to deem services ineligible if the required pre-certification was not obtained.	
Pre-existing Conditions	Any illness, injury, condition, or associated medical need(s) for which a Member is aware of but fails to disclose on their WeShare membership application.	
Psychological	Medical need(s), including counseling, testing, treatment, medication, and hospitalization to address certain psychological conditions (unless testing and certain treatment specifically noted as eligible)	1. Learning disabilities; 2. Socialization programs for developmental delays (services to diagnosis the developmental delay and treatment through speech or occupational therapy are eligible); 3. ABA Therapy; 4. Eating disorders, except for services offered through Amwell counseling and nutrition programs 5. Alcohol / Substance abuse Note: testing and services to diagnose autism are eligible. Physical, speech and occupational therapy are also eligible for Autism. However, ABA Therapy is not eligible.

Category	Description	Additional Notes
Reasonable & Allowable Amount	Amounts greater than the defined reasonable & allowable amount	The reasonable and allowable amount is the lesser of: 1) the charge made by the provider that furnished the care, service, or supply; 2) the reasonable and customary charge for the same treatment, service, or supply furnished in the same geographic area by a provider of like service of similar training and experienced as further described below; or 3), for claims submitted on UB-04 forms, an itemized medical bill that lists in detail all the services that were provided during a visit or stay, including but not limited to, inpatient or outpatient facility claims, an amount equivalent to 140% of the Medicare equivalent allowable amount.
Second Surgeries	Second surgeries on previously eligible surgical medical needs, unless the Member has unexpected and unprovoked complications or the provider has established that one or more follow-up surgeries will be needed to fulfill the treatment of your condition (prior to your initial surgery)	
Sexual Dysfunction	Sexual dysfunction service	
Timely Filing	Members and providers are encouraged to submit medical needs within six (6)-months of the date of service or treatment. However, UHSM will process SMBs for up to 1-year of the date of service. Services submitted after 1-year of the date of service are ineligible for sharing.	
Therapy	Aqua therapy, Chelation therapy, Biofeedback	
Transportation	Transportation (for example, by an ambulance) for conditions that are non-emergency-related	
Travel & International	1. Medical tourism 2. WeShare requires that Members procure travel medical insurance for any trip outside the continental U.S. and its territories. Member sharing is ineligible for those living abroad. 3. Travel Immunizations/Vaccines including any immunization taken for travel purposes. Common travel immunizations include Cholera, Dengue, Japanese Encephalitis, Malaria (prevention medication), Polio (active, inactive is eligible as part of the routine immunization recommendation from the CDC), Tick-borne Encephalitis, Tuberculosis, Typhoid & Paratyphoid Fever, Yellow Fever	
Upfront Payments	Any medical service fee(s) paid to out-of-network providers, and / or upfront payments made to in-network providers. WeShare is not a reimbursement program.	
Vision	Routine vision medical needs are ineligible for sharing (services typically performed by an Ophthalmologist such as annual vision exams, refraction, contact lenses or glasses). Services performed to treat a medical condition or illness of the eye are eligible.	While vision procedures are not eligible for sharing, Members should be educated on and encouraged to leverage their Vision Discount Program (through Superior Vision).
Vitamins & Supplements	Vitamins (including B12 injections), supplements, or health foods	Formula for infants/babies are not eligible (regardless if OTC or prescribed).
Weight Management	1. Obesity (defined as exceeding height / weight) and any complication relating to that diagnosis 2. Weight control and management (including nutritional counseling for weight loss, weight gain or health maintenance), even if related to a medical condition.	While weight management medications or procedure are not eligible for sharing, members should be educated on and encouraged to leverage Noom Digital platform and Amwell's nutritional counseling services to help make lifestyle changes to obtain or maintain a healthy weight.
Women's Care	1. Doula services 2. Hysterectomy, unless deemed medically necessary by a Licensed Physician	
Work-related Conditions	Any conditions or injuries occurring while performing income-producing or work-related activities
