

PROGRAM DETAILS

FUNDAMENTAL 10000 HEALTHCARE SHARING

Welcome

This Program Details document shows the amount eligible for sharing for eligible Medical Needs under the UHSM™ Health Sharing Program. It is only a summary. Please read all your member materials carefully to fully understand your Sharing Program's benefits.

Provider Networks

UHSM Health Sharing Programs use specific networks of health care providers. PHCS® is our Medical Network and CVS Caremark™ our Pharmacy Network. These providers are called Participating Providers. UHSM is not authorized to share the charges submitted by a Non-Participating Provider except for life-threatening emergency situations. You can find a list of Participating Medical Providers at www.uhsm.com/PHCS and www.uhsm.com/Rx for pharmacy providers.

Note: When searching for participating providers, please note that any result provided is for reference only; as participating physicians, hospitals and/or healthcare providers may have changed since a source directory was last updated. Always confirm network participation and provide your UHSM Member ID card prior to scheduling an appointment and before services are rendered.

Annual Member Care Share

The amount the Sharing Member commits to contributing prior to member-to-member sharing of eligible Medical Needs, each calendar year based on their Sharing Program. The calendar year starts on January 1 and continues through December 31. Some benefits received from Participating Providers are not subject to the AMCS, and only require a consult fee. AMCS must be met for each individual sharing member within a calendar year, including those sharing members that are considered dependents. UHSM Health Sharing Programs do allow for certain Medical Needs to be shared before a Sharing Member's Annual Member Care Share (AMCS) is met, as noted in the Benefits chart or in the Notes section.

Annual Member Care Share	
Medical	\$10,000 per member per year
Pharmacy	\$250 per member per year

"UHSM is incredible for our family. Our agent is helpful, expedient, and sharing is excellent."

Julie - Oklahoma

Annual Member Care Share Maximum

The most a Sharing Member must contribute toward eligible medical services in a calendar year. After each Sharing Member contributes this amount, the health share program facilitates sharing payments for 100% of the eligible medical costs. Monthly Contribution Amounts (MCA) are not included in the Annual Member Care Share Maximum.

Annual Member Care Share Maximum

\$10,000 per member per year

Annual Pharmacy Share Maximum

The maximum amount any UHSM program will share, per member per year, for eligible pharmacy services. There is no Program based Lifetime or Annual Share Maximum on medical services, except where noted in the list of benefits.

Annual Pharmacy Share Maximum

\$2,500 per member per year

More than 96% of Americans are within 20 miles of a network provider

The UHSM Sharing Program reflects the summary of benefits at the time of publishing but all UHSM Sharing Programs are subject to change without prior notice.

Other Medical Services

UHSM™ Telehealth, Annual Wellness & Preventive Care (Annual Checkup) and life-threatening Emergency services are available for sharing upon Membership effective date (except Fundamental, which requires 60 days continuous membership for Wellness & Preventive). For eligible sharing of other medical services and some pharmacy benefits, continuous Membership must be met first (typically 60 days for most services), with additional limitations as outlined in the Member Guide. For instance, cancer procedures and treatments, or cataracts and/or glaucoma diagnostic testing or surgery, require twelve (12) months of continuous membership, while colonoscopy requires six (6) months. Within the first 24 months of continuous membership, Maternity sharing is limited to \$5,000 and pre-existing conditions are ineligible. All CDC-scheduled immunizations for newborn children (0 to 18 months) coming into the program require six (6) months of continuous membership before being eligible for sharing. Immunizations for children older than 18 months, and newborns (0-18 months) in which the parent has at least ten (10) months of continuous membership, are immediately eligible for sharing. Full Limited Sharing Eligibility is outlined in the Member Guide.

Not a Reimbursement Program

UHSM is not a reimbursement program. Instead, UHSM contracts with the PHCS PPO Network, a wholly owned subsidiary of MultiPlan, Inc., to offer members pre-negotiated rates on specific medical services. For that reason, UHSM members should never pay cash up front for any service; with the exception of a per visit consult fee. Contact Member Services immediately if there is ever confusion with a provider about this process. Out-of-network services and fees are ineligible for sharing. Refer to the Member Guide for more detail.

Care Confirmation & Preauthorization

UHSM strongly encourages members to take a proactive, responsible role in their health care, and that means doing more than just showing up for appointments. At UHSM we call it Care Confirmation. It means that in order to avoid being surprised with unexpected medical bills and expenses, members must do their part to ensure that providers request preauthorization from UHSM, prior to receiving any tests, treatments, diagnostics, procedures, or other services. This also applies to UHSM™ Telehealth.

For example:

- If a provider (via UHSM™ Telehealth or in-person) issues lab orders, members who then contact UHSM can confirm in-network provider facilities, verify program benefits, and understand any cost implications.
- Certain prescription benefits may even require Care Confirmation preauthorization to avoid shockingly expensive medical bills.
- Even your Annual Wellness & Preventive visit can benefit from preauthorization; as that visit sometimes leads to followup labs and treatment that may be ineligible for sharing.

In this respect, when you actively participate in Care Confirmation through UHSM preauthorization, you help ensure that you are not left responsible paying for excess medical bills. Medical professionals are experts in caring for people; not in understanding every patient's healthcare benefits. For that reason, preauthorization is your chance to engage in your health care to improve your outcomes. In doing your part, you'll help yourself and fellow UHSM members save on health care.

Even with Wellness and Preventive services, we encourage every UHSM member to seek Care Confirmation by having the provider submit a preauthorization form. Preauthorization is a typical and customary best practice for medical providers, offering transparency with all associated medical costs and eligibility. Our UHSM Care Confirmation enables the provider, the member, and the health care program avoid unexpected expenses.

Required Preauthorization Services

As part of Care Confirmation, UHSM suggests preauthorization in most cases, but certain medical and pharmacy services actually REQUIRE preauthorization before becoming eligible for sharing within UHSM. Always contact Member Services if you have questions.

Frequently requested medical services that require preauthorization include:

Laboratory Services (blood, urine, pathology, etc), Procedures such as biopsies and injections, Radiological and nuclear imaging services (including nuclear cardiology), Advanced scanning and imaging (MRI, MRA, PET, CT), Chemotherapy or infusions, Dialysis (outpatient only), Therapy (physical, occupational, speech), Durable Medical Equipment over \$1,000 (excluding braces and orthotics), Partial hospitalization, Outpatient surgery, and Inpatient stays (hospitals, extended care facilities or residential treatment facilities).

Frequently requested pharmacy services that require preauthorization include:

ADHD/narcolepsy, Narcolepsy only, Anabolic steroids, Androgenic steroids, Acne, Compound medications.

Medical Services

Eligible Services Prior to Meeting AMCS

UHSM™ Telehealth	\$0 Consult Fee <i>100% Eligible for Sharing – Unlimited Visits; Available upon program start date</i>
Urgent Care	\$100 Visit Fee ¹ <i>2 visit¹ Limit per year; Available upon program start date</i>
Wellness & Preventive Care (Annual Checkup)	\$0 Consult Fee <i>100% Eligible for Sharing – \$500 Share Maximum per year</i>

Emergency & Hospitalization

Emergency Room <i>If admitted to hospital, inpatient benefits will apply</i>	100% after AMCS ²
Hospitalization	100% after AMCS
Ambulance Services	100% after AMCS <i>\$500 Share Maximum per ride; \$10,000 Share Maximum for air transport</i>

Inpatient Facility Services

Specialty Care ²	100% after AMCS <i>Specialty Care² only eligible during inpatient facility stay of 24 hours or longer</i>
Anesthesiologist	
Surgical	
Lab & Diagnostics	
X-Ray & Diagnostic Imaging	
Pharmacy	

Outpatient Facility Services

Anesthesiologist	100% after AMCS
Outpatient Department of a Hospital: Surgery	
Surgical	
Lab & Diagnostics	
X-Rays & Diagnostic Imaging	
Pharmacy	

How Preauthorization Works

Have the provider's office staff contact UHSM Member Services using the information on the back of your Member ID card or have them visit www.uhsm.com/preauth. Providers can complete the preauthorization form, fax it to (888) 858-3315, and UHSM will coordinate the Care Confirmation preauthorization for your care within 48 hours.

Check with our Member Services team prior to undergoing any procedures if you are unclear on sharing eligibility for a specific medical need.

Pharmacy Services

Formulary Generic Medications	AMCS does not apply
Per Prescription, up to 30-day supply (CVS Caremark)	40% co-share
Per Prescription, up to 90-day supply (Mail Order and CVS)	40% co-share
Formulary Brand Medications	
Per Prescription, up to 30-day supply (CVS Caremark)	30% co-share after AMCS met ¹
Per Prescription, up to 90-day supply (Mail Order and CVS)	30% co-share after AMCS met ¹ <i>¹Available after 60 days of Program participation</i>
Non – Formulary / Specialty Brand Medications	N/A

REGARDLESS OF WHETHER YOU RECEIVE ANY PAYMENTS FOR MEDICAL EXPENSES OR WHETHER THIS ORGANIZATION CONTINUES TO OPERATE, YOU ARE ALWAYS RESPONSIBLE FOR THE PAYMENT OF YOUR OWN MEDICAL BILLS.

Notes

UHSM Member Guide / Guidelines

A document provided to Sharing Members, reciting the Guidelines to which Sharing Members agree. The UHSM Member Guide describes the benefits and limitations that apply to membership and Sharing Programs. The Member Guide helps Sharing Members understand how Monthly Contributions are shared in accordance with the Escrow Instructions. Please review for more details of benefits outlined in this Sharing Program. You can request a copy at any time.

Defined terms are in the Member Guide. Refer to this document for an explanation of the terms used in this Sharing Program Details.

Annual Member Care Share

Annual Member Care Share (AMCS) explained. The amount the Sharing Member commits to paying for prior to allowing other Sharing Members to contribute toward their Eligible Medical Needs per Sharing Member, each calendar year based on their Sharing Program. The calendar year starts on January 1 and continues through December 31.

Member benefits not subject to the AMCS: Some benefits received from Participating Providers are not subject to the AMCS and only require a Consult Fee by the Sharing Member.

Individual AMCS even if within a family. This means that the AMCS must be met for each individual Sharing Member within a calendar year, even for those Sharing Members that are considered dependents.

Using Participating Providers

Receiving Services from Participating Providers. When you receive benefits or services from a confirmed Participating Provider, you are only responsible for the Consult Fee or Member Co-share, once any Calendar Year AMCS has been met.

Note: When searching for participating providers, please note that any result provided is for reference only; as participating physicians, hospitals and/or healthcare providers may have changed since a source directory was last updated. Always confirm network participation and provide your UHSM Member ID card prior to scheduling an appointment and before services are rendered.

Receiving Services from Non-Participating Providers. You are always responsible for 100% of all medical fees. But any services or benefits received from Non-Participating Providers, with the exception if deemed a life-threatening emergency, will not be eligible for Sharing.

Annual Member Care Share Maximum

The most a Sharing Member must contribute toward eligible medical services in a calendar year. After each Sharing Member contributes this amount, the health share program facilitates sharing payments for 100% of the eligible medical costs. Monthly Contribution Amounts (MCA) are not included in the Annual Member Care Share Maximum.

Any AMCS counts towards the Annual Member Care Share Maximum. Any fees that would be eligible for sharing but not shared due to it applying towards a Sharing Member's medical or pharmacy AMCS also will count towards the Annual Member Care Share Maximum for that Sharing Member.

The UHSM Sharing Program reflects the summary of benefits at the time of publishing but all UHSM Sharing Programs are subject to change without prior notice.

Join Us!

Any amounts applied to the Annual Member Care Share Maximum must be provided through Participating Providers.

Individual Sharing Member Care Share Maximum. This means that the Annual Member Care Share Maximum must be met for each individual Sharing Member within a calendar year, even for those Sharing Members who are considered dependents.

■ Separate Member Fees When Multiple Services are Received

Each time you receive multiple services, you might have separate fees (Consult Fee or Member Co-share) for each service. When this happens, you may be responsible for multiple Consult Fees or Member Co-share. For example, you may owe an office visit Consult Fee in addition to an allergy serum Member Co-Share when you visit the doctor for an allergy shot.

■ Preventive Health Benefits

Although UHSM is not an insurance provider, we voluntarily use the list of preventive care services outlined by www.HealthCare.gov as a guideline for our eligible Preventive benefits, with some exceptions as noted by the Ineligible Sharing Needs section of the Member Guide.

If you only receive Preventive Health benefits during a physician office visit, there is no Consult Fee or Member Co-Share for the visit. If you receive both Preventive Health benefits and other benefits during the physician office visit, you may be responsible for a Consult Fee or Member Co-Share for the visit. We recommend that providers request preauthorization for your visit; and if follow up labs, tests and treatments are recommended by your physician we encourage every UHSM member to seek Care Confirmation by having the provider submit a preauthorization form. Preauthorization is the best way for the care provider and you to gain transparency on all associated costs and eligibility; and for all involved to avoid unexpected medical expenses.

Our Member Services and Provider Concierge teams are committed to ensuring an awesome experience for all.

In that spirit, UHSM offers our **Compassionate Care Program** for members diagnosed with a chronic illness or cancer – who need resources and support. If you or another member needs assistance, please contact us today!

The UHSM Sharing Program reflects the summary of benefits at the time of publishing but all UHSM Sharing Programs are subject to change without prior notice.

ANNUAL MEMBER CARE SHARE (AMCS) – The amount the Sharing Member commits to contributing prior to member-to-member sharing of eligible Medical Needs, each calendar year based on their Sharing Program. The calendar year starts on January 1 and continues through December 31. Some benefits received from Participating Providers are not subject to the AMCS, and only require a consult fee. AMCS must be met for each individual sharing member within a calendar year, including those sharing members that are considered dependents.

ANNUAL MEMBER CARE SHARE MAXIMUM – The most a Sharing Member must contribute toward eligible medical services in a calendar year. After each Sharing Member contributes this amount, the health share program facilitates sharing payments for 100% of the eligible medical costs. Monthly Contribution Amounts (MCA) are not included in the Annual Member Care Share Maximum.

ANNUAL PHARMACY SHARE MAXIMUM – The maximum amount any UHSM program will share, per member per year, for eligible pharmacy services.

CONSULT FEE – A fixed amount paid by a Sharing Member to the Participating Provider at time of medical service(s).

ELIGIBLE – A status indicating that you have met the conditions that qualify for sharing as described in the Member Guidelines, and your Medical Needs fall within the parameters of the Sharing Program.

MATERNITY – A Sharing Member's Medical Needs or newborn child's Medical Needs relating to prenatal care and newborn delivery.

MEDICAL NEED(S) – Charges or expenses for medical services that are provided by a facility or by a licensed medical professional to address illnesses and accidents.

MEDICALLY NECESSARY – A service, procedure, or medication necessary to restore or maintain physical function and is provided in the most cost-effective setting consistent with the Sharing Member's condition. The fact that a medical professional may prescribe, administer, or recommend services or care does not make it medically necessary, even if it is not listed as a Membership Limitation or an ineligible need in the Member Guidelines. To help determine medical necessity, UHSM may request the Sharing Member's medical records and may require a second opinion from a Participating Provider.

MEMBER CO-SHARE – After AMCS has been met, the fixed percentage or cost of Medical Needs the Sharing Member has committed to paying, thus limiting the amount other Sharing Members contribute towards the total expense/cost of the Eligible Medical Needs.

MEMBER GUIDE / GUIDELINES – A document provided to Sharing Members, reciting the agreed to Sharing Member Commitments, outlining eligible and ineligible medical needs, and to help Sharing Members understand how Monthly Contributions are shared in accordance with the membership's Escrow Instructions.

NON-PARTICIPATING PROVIDER – A healthcare facility or medical professional not part of the UHSM approved care provider network, and thus ineligible for sharing.

PARTICIPATING PROVIDERS – In-network medical care professionals or facilities under contract with UHSM to help limit medical costs for its Sharing Members. Participating Providers can be found at www.uhsm.com/PHCS. Please Note: When searching for participating providers, please note that any result provided is for reference only; as participating physicians, hospitals and/or healthcare providers may have changed since a source directory was updated. Always confirm network participation and provide your UHSM Member ID card prior to scheduling an appointment and before services are rendered.

PREAUTHORIZATION – A restriction placed on certain medications, tests, or health services that requires Members and Providers to first check with UHSM, and be granted permission, before becoming eligible for sharing.

PRE-EXISTING CONDITION – Any medical condition for which you have been diagnosed, shown symptoms, been examined and/or received treatment prior to becoming an active Sharing Member of UHSM – whether known to you or not – is considered a pre-existing condition and not eligible for sharing during the first 24 months of continuous membership; unless otherwise specified.

SHAREABLE MEDICAL BILL (SMB) – A formal request submitted to UHSM by a Sharing Member or Provider for Eligible Medical Needs under Sharing Program terms.

SHARING MEMBER – Those who have applied to become a Sharing Member and agreed with the Statement of Faith and Shared Beliefs, the Sharing Membership Commitments, and the Escrow Instructions. Sharing Members must choose a Sharing Program, submit scheduled Monthly Contributions, and are not be ineligible for any other reason (including age restrictions). Sharing Members may submit Eligible Medical Needs for sharing in conjunction with the Member Guidelines, the specific Sharing Program and the Escrow Instructions.

SHARING PROGRAM – UHSM Sharing Programs are available with varying levels of Annual Member Care Share (AMCS) amounts and Maximums, as selected and approved on the Membership Enrollment Application.
